

SC 1000

**Solar-powered satellite tracking
for intelligent visibility.**

Get asset location, status and more—virtually anywhere

Built for ORBCOMM's OGx network, the SC 1000 helps deliver visibility into previously untracked assets in remote areas. Its small size, solar battery and integrated satellite antenna help make asset tracking easy and affordable across a wide range of applications.

Resistant to dust, water, shock and vibration, the SC 1000 is built to provide global coverage for light- and heavy-duty vehicles, containers, trailers, railcars, farm equipment, maritime vessels and more—even in the world's harshest environments.

Perform engine operation sensing and hour logging with a built-in accelerometer. Receive alerts when assets start moving to help improve cargo security. Install and remove quickly and easily on virtually any type of equipment. The SC 1000 supports wireless sensors, enabling users to monitor trailer and containers using door sensor and temperature sensors.

Connect your SC 1000 to the ORBCOMM platform—or use the OGx Gateway Services to integrate the SC 1000 with your own platform—for streamlined asset management.

• **Solar battery**

• **Satellite connectivity**

• **Quick and easy install**

• **Rugged**

• **Wireless sensor support**

Specifications

Satellite communication

- ORBCOMM OGx two-way global satellite service

Dimensions

- 8.8 x 3.0 x 1.1 in
- 224 x 76 x 28 mm
- Plastic material: polycarbonate
- Color: white

Certifications*

- Inmarsat type approval
- FCC/IC
- CE RED 2014/53/EU
- ATEX Zone 2
- CID2
- ROHS
- WEEE
- HERO
- Contact ORBCOMM for full list of certifications

Sensors

- 3-axis accelerometer, device temperature
- BLE door sensor
- BLE temperature sensor

Wireless

- BLE 5.2

Battery

- Type: Li-on
- Operating temperature: -30°C to 70°C
- Storage temperature: -40°C to 85°C

Environmental

- Ingress protection: IP67 and IPX9K
- Vibration: AAR-S-9401, rail car body mounted
- Mechanical shock: MIL-STD-810HG, method 516.8, 40g

Global positioning

- Constellations supported:
 - ▶ GPS
 - ▶ GLONASS
 - ▶ BeiDou
 - ▶ Galileo

* All certifications are pending

Although we strive to ensure accuracy in all of our published specifications, actual field performance can vary depending on a variety of environmental, installation and usage factors, as well as third-party factors such as cellular providers. The specifications listed are approximations, and do not constitute binding statements or modify the terms and conditions of purchase or lease including, but not limited to, product operational limitations and warranties. All specifications are subject to change without notice. Please check www.orbcomm.com to ensure you have the latest version of these specifications.
